

## The Vital Importance of Context

**Mr. David Malone**

President

Canadian International Development  
Research Council (IDRC)

**Tuesday October 13<sup>th</sup> at 7 pm**  
**McMaster Innovation Park**

The talk will roam across subject areas to highlight the importance of specificity in research and the need for extreme caution in offering or entertaining generalizations. Malone will focus on issues of agricultural productivity and water management but also on cases relevant to peace and security. He will draw on examples in Africa, the Middle East and Asia.
