Water Virtual Learning Centre

## 2012 RE-LAUNCH OF WVLC

The United Nations Water Virtual Learning Centre has offered flexible distance learning for Integrated Water Resource Management since 2001, supported by funding from the UN Development Fund, AGFUND and the Arab Fund. The WVLC will be re-launched in 2012 with the following improvements and updates:

1. Upgrade of the course interface, with course delivery method being maintained
2. Creation of the WVLC Alumni Interactive 'Learning Network'
3. Small Grants Competition - announcement for all WVLC graduates to submit proposals for funding to support IWRM on the ground
4. Upgrade of Studyspace™ platform with improved browser compatibility
5. Online global database of background material and further readings being created
6. IWRM Diploma Graduates from any Regional Centre are now eligible for 60 EU units towards a Masters at the University of Dundee
7. Jointly developing a Fellowship Fund in partnership with Regional Centers
8. New courses being developed:
  - a) Water-Health Training supported by AGFUND
  - b) Transboundary Water Management in partnership with GEF and UNDP

Detailed information to be provided in early 2012. If you have any questions, please contact WVLC manager Andrew Dansie ([dansie@inweh.unu.edu](mailto:dansie@inweh.unu.edu)).
